D-4 - adjustable damper. Given that there is little information on adjusting the electronic shutter of 3 S - FSE engines, and also, based on material kindly provided by Anton (12 volt ), and Vladimir Petrovich, based on the practice of adjustment, we can offer (in my opinion) another option . In both articles, the adjustment options for one motor model are given, but, as you know, it was produced in several modifications depending on the model of the car and the year of manufacture.
