The Telemark Assembler (TASM) is a table-driven cross assembler for the MS-DOS and LINUX environments.

TASM - TI Story

The Telemark Assembler (TASM) is a table driven cross assembler for the MS-DOS and LINUX environments. Assembly source code, written in the appropriate dialect (generally very close to the manufacturers assembly language), can be assembled with TASM, and the resulting object code transferred to the target microprocessor system via PROM or other mechanisms.
