Assessment Chapter Test A

Try our free Cosmetologist Practice Test to see the type of questions that are on a cosmetology licensing or certification test. Most states require cosmetologists to take a two-part exam to become licensed or certified. The first part is a written multiple-choice exam covering such subjects as skin structure, nail structure, haircutting, facials and sanitation.

Free Cosmetology Practice Test (Updated 2020)

Answer: E. This is another boundary behavior question with a mathematical slant to it. The frequency of the incident and transmitted waves are always the same. Thus, use f =v/w to find the frequency of the incident wave - 2.2 Hz. The frequency of the transmitted wave is >also 2.2 Hz, the wavelength is 3.0 m, and so the speed is f*w = 6.6 m/s.
