BS EN 62676-1-1 says: "Thesecurity grades shall be applied, where VSS is identified as the primary mitiga- tion of the risk." In this context "mitigation" means a measure that is put in place to reduce the consequences of a threat. Security is not normally achieved using a single method of mitigation.

BS EN 62676-1-2 - Video surveillance systems for use in ...

The BS EN 62676 series of standards are new to the industry and introduce some new concepts including, for the first time, encouragement to use security grading. It is important to understand that the majority of requirements given by the BS EN 62676 series of standards are not grade dependent but, as this is a new concept, this guide pays particular attention to the subject.
