Eat plenty of foods rich in vitamin C and other antioxidants. These nutrients help prevent sperm defects and boost motility (movement). An 8-ounce glass of orange juice has about 124 milligrams (mg) of vitamin C. Aim to get at least 90 mg a day – more if you smoke (at least 125 mg). Get enough zinc.

The fertility diet increased the chances of ovulating among women who ate the diet, which automatically improved their fertility. Things that make up the fertility diet, according to research on the topic, include eating a diet low in trans fats and sugar, while being high in protein found in plant sources rather than animal sources. A diet rich in fiber is also important in a good fertility diet. Iron and vitamins should be included in any diet that increases fertility.

So relax and enjoy you fatherhood. Pocket guide for first time fathers. Practical advice on baby related topics.

Ten years ago, Nina Planck changed the way we think about what we eat with the groundbreaking Real Food. And when Nina became pregnant, she took the same hard look at the nutritional advice for pregnancy and newborns, finding a tangle of often contradictory guidelines that seemed at odds with her own common sense. In Real Food for Mother and Baby, Nina explains why some commonly held ideas about pregnancy and infant nutrition are wrongheaded--and why real food is good for growing minds and bodies. While her general concept isn't surprising, some of the details might be. For expecting mothers and babies up to two years old, the body's overwhelming requirements are fat and protein, not vegetables and low-fat dairy--which is why, for example, cereals aren't right for babies, but meat and egg yolks are excellent. Nina shares tips and advice like a trusted friend, and in this updated edition, her afterword presents the latest findings and some newly won wisdom from watching her three children grow on real food.

The Egg Quality Diet is the culmination of what Aimee Raupp has found, during her two decades of clinical practice, to be the most effective nutritional approach to optimizing fertility. This diet has been proven to work not in a randomized control trial (RCT) but in real life, on thousands of real women like you. Real women who have been told they have no good eggs left or they are too old or they are in menopause. This diet has been proven in women with high follicle stimulating hormone (FSH), low anti-mullerian hormones (AMH), recurrent pregnancy loss (RPL), multiple failed in-vitro fertilizations (IVF) and intrauterine inseminations (IUI). This diet has been proven in women with endometriosis, miscarriage, poly-cystic ovarian syndrome (PCOS), fibroids, cysts, adenomyosis, asherman's syndrome, premature ovarian failure (POF) and hypothalamic amenorrhea. This diet has helped hundreds of women, even those in their mid to late forties, make healthy babies using their own eggs. This diet has helped women bring their FSH from above 50 down to 10. This diet has helped women double, even triple their AMH. Even more, this diet has been recommended by multiple reproductive endocrinologists (R.E.) to their clients.

INSTANT NEW YORK TIMES BESTSELLER • WALL STREET JOURNAL BESTSELLER • #1 GLOBE AND MAIL BESTSELLER • USA TODAY BESTSELLER You are not broken. Being a woman is not a diagnosis. Take your body back with the groundbreaking new science for women in Hormone Intelligence. Hormonal. We all know what it means when we hear it – and feel it. While hormonal shifts are natural throughout women ' s lives, too many experience distressing period symptoms, struggle daily with PCOS, endometriosis, a fertility challenge, pain, low sex drive, sleep problems, acne, bloating, hot flashes, and more – all due to hormone-related problems. And too many are unable to get the answers they ' re really seeking from their doctors. There is a solution. In Hormone Intelligence, Yale trained and internationally renowned women ' s health expert, Dr. Aviva Romm, helps you identify the root causes of your symptoms and guides you through a 6-week proven program to achieve lifelong hormonal and gynecologic health. Using a holistic, dietary and lifestyle changing approach, Hormone Intelligence goes beyond treating symptoms to the deeper factors impacting women ' s health, so you can reclaim your body, hormones, and self. Inside Hormone Intelligence, you ' ll find:

- Hormone Health 101: Understand the key components of the hormone epidemic and associated dietary and lifestyle triggers.
- Symptoms and Root Causes Demystified: Discover what your symptoms are saying about your hormones with quizzes, checklists, trackers, and more.
- A 6-Week Action Plan: Learn what foods you should indulge and avoid, how to repair your microbiome to support hormone health, how to identify environmental hormone disruptors, engage your body ' s natural detoxification systems and reduce hidden inflammation, and the lifestyle changes that lead to happy, healthy hormones.
- Delicious, done-for-you meal plans to take you through the entire program, including vegan options.

Hormone Intelligence is an invitation to a whole new relationship with your body and hormones, the exhale you ' ve been waiting for, and the first step on the road to realizing that a diagnosis does not have to be your destiny. Extended references, a complete index, and additional resources for Hormone Intelligence can be found at the author's website.

This is the complete guide to getting pregnant and improving fertility naturally -- even if you've been told your chances of conception are low. A nationally renowned women's health and fertility expert, Aimee Raupp has helped thousands of women optimize their fertility and get pregnant. Now, in this book, she provides her complete program for improving your chances of conceiving and overcoming infertility, including the most effective complementary and lifestyle approaches, the latest nutritional advice, and ways to prepare yourself emotionally

and spiritually.

Making Babies offers a proven 3-month program designed to help any woman get pregnant. Fertility medicine today is all about aggressive surgical, chemical, and technological intervention, but Dr. David and Blakeway know a better way. Starting by identifying "fertility types," they cover everything from recognizing the causes of fertility problems to making lifestyle choices that enhance fertility to trying surprising strategies such as taking cough medicine, decreasing doses of fertility drugs, or getting acupuncture along with IVF. Making Babies is a must-have for every woman trying to conceive, whether naturally or through medical intervention. Dr. David and Blakeway are revolutionizing the fertility field, one baby at a time.

A complete dietary program for women seeking healthy pregnancy. Created by RDN certified experts, Fertility Foods provides you with powerful nutritional benefits and more than 100 recipes. Struggling with infertility can be one of the most frustrating experiences for women looking to conceive. Rather than juggle multiple prescription medications all while scheduling an endless series of doctors' visits, Fertility Foods helps you to seek better results—just by changing your diet! As you prepare to enter one of the most significant times in your life, you owe it to yourself and your future children to make sure that your body has absolutely everything it needs, at the proper times and in the proper quantities. Fertility Foods includes:

- Over 100 nutritious, satisfying dishes to boost your fertility
- Dietary breakdowns to help you understand what will help your body conceive, and why
- Tips on managing stress and other lifestyle factors
- Heartfelt support and guidance from women who have struggled with infertility
- A how-to guide on putting together a healthy kitchen

Fertility Foods is more than just a diet plan or cookbook. It's a companion, a constant support providing you with the information you need to ensure you receive proper nutrition before conception.

Zita West, midwife to Cate Blanchett, Stella McCartney and Kate Winslet, shares her expertise in nutrition to help you and your baby stay healthy naturally throughout your pregnancy. It is crucial to eat an optimum diet during pregnancy. Your levels of nutrients need to be high in order to support you through the process of pregnancy, and the baby that you're carrying inside of you needs the full range of nutrients to be as healthy as possible. It can be difficult and tiring to make nutrient-filled meals, but Zita gives you clear information and simple, easy-to-make recipes. The first section of the book covers details such as what nutrients are important and what they do for you and your baby, and foods that are unhealthy to consume during pregnancy. The second section uses the vitamins and nutrients explained in the first section in 80 delicious recipes. Introduction Your Health (nutrients your body needs as it changes, sources of these nutrients, foods that help with the side effects of pregnancy, the importance of safe exercise) Your Baby's Health (nutrients your baby needs to grow, what they do, sources of these nutrients) What to Avoid (foods not to eat why they are bad for you and your baby) Breakfasts Light Meals Snacks and Treats Main Meals Desserts."
