Can modern science tell us what happened to Amelia Earhart? The International Group for Historic Aircraft Recovery (TIGHAR) has spent fifteen years searching for the famous lost pilot using everything from archival research and archaeological survey to side-scan sonar and the analysis of radio wave propagation. In this spellbinding book, four of TIGHAR's scholars offer tantalizing evidence that the First Lady of the Air and her navigator Fred Noonan landed on an uninhabited tropical island but perished before they could be rescued. Do they have Amelia's shoe? Parts of her airplane? Are her bones tucked away in a hospital in Fiji? Come join their fascinating expedition and examine the evidence for yourself! The new paperback edition brings the search up to the present, including tantalizing evidence of campfires and charred bones found on remote Nikumaroro. Visit the Authors' Web page for more information.

EXAMPLE This version of the 737NG COCKPIT COMPANION describes the 600 through the 900, including the BBJ and BBJ 2. Refer to this guide for oral prep, simulator PC review, and in the cockpit when needed but be sure to refer to your flight manual for the final authority.

This illustrated, easy reference guide is packed with all the information you need to help you date English furniture and bring its history to life. The book looks at many different furniture types, showing how form, style and the types of wood used changed from the Tudor period through to the Art Deco years of the 1930s. It highlights key details, what to look for when dating furniture, and introduces significant furniture designers and their importance. There's also a look at how changes in English society and fashion resulted in the introduction of specific pieces. The book should appeal to those who love antique shows on TV and looking round antique shops and country houses, but would like to know more about furniture and the stories behind it.

This is an illustrated technical guide to the Boeing 737 aircraft. Containing extensive explanatory notes, facts, tips and points of interest on all aspects of this hugely successful airliner and showing

its technical evolution from its early design in the 1960s through to the latest advances in the MAX. The book provides detailed descriptions of systems, internal and external components, their locations and functions, together with pilots notes and technical specifications. It is illustrated with over 500 photographs, diagrams and schematics. Chris Brady has written this book after many years developing the highly successful and informative Boeing 737 Technical Site, known throughout the world by pilots, trainers and engineers as the most authoritative open source of information freely available about the 737.

It happens in marriages, parent-child relationships, friendships, workplaces, and churches: Communication falters, friendships wane, teenagers withdraw, marriages fail, and bitter rifts sever once-strong ties. Christian communities are no exception. Why do so many of our relationships suffer from alienation, indifference, and even hostility? Author Sam Crabtree believes that often at the heart of these breakdowns is a lack of affirmation. He observes in Scripture that God grants mercy to those who refresh others, and in life that people tend to be influenced by those who praise them. Crabtree shows

how a robust “God-centered affirmation ratio” refreshes others and honors God. Practicing Affirmation sounds a call to recognize and affirm the character of Christ in others. When done well, affirmation does not fuel pride in the person, but refreshes them and honors God. All who are discouraged in relationships will find wisdom and practical insight in this book.
