Michel is a civil-servant at the Ministry of Culture. When his father is murdered, Michel takes a leave of absence to go on a package tour to Thailand. Infuriated by the shallow hypocrisy and mediocrity of his fellow travellers, only the awkward Valerie attracts his attention. Too bashful to pursue her, Michel prefers the uncomplicated pleasures of Thai massage parlours and sex with local women. Back in Paris,

he calls Valerie and they plunge into a passionate affair, which strays into S&M, partner-swapping and sex in public. Michel quits his job, and tries to help Valerie and her boss, Jean-Yves, in their ailing travel business, by offering travel packages based on sex tourism in the third world. When their project comes to fruition and the three return to Thailand, Michel discovers that sex is neither the most consuming nor the most dangerous of human passions...

In this analysis of the global workforce, the Joint Learning Initiative, a consortium of more than 100 health leaders, proposes that mobilization and strengthening of human resources for health, neglected yet critical, is central to combating health crises in some of the world's poorest countries and for building sustainable health systems everywhere. Worker shortage, skill mix imbalance, maldistribution, negative work environments, and weak knowledge bases challenge nearly all countries. Especially in the poorest countries, the workforce is under assault by a triple threat of HIV/AIDS, out-migration, and inadequate investment. Effective country strategies should be launched and backed by international reinforcement. These include urgently mobilizing one million more health workers for Africa, and focusing efforts on the unremunerated community-level health workers, the majority of whom are women. Ultimately, the crisis in human resources is a shared problem requiring shared responsibility for cooperative action. Alliances for action are recommended to strengthen the performance of all actors while expanding space and energy for new ones.

The WEB of Transport Corridors in South Asia develops a holistic appraisal methodology to ensure that economic benefits of investments in transport corridors are amplified and more widely spread, and possible negative impacts such as congestion, environmental degradation, and other unintended consequences are minimized. It focuses on South Asia—not only as one of the world's most populous and poorest regions—but as a hinge between East Asia, Central Asia, the Middle East, and Europe. The book is aimed at politicians, technocrats, civil society organizations, and businesses. It presents case studies of past and recent corridor initiatives, provides rigorous analysis of the literature on the spatial impact of corridors, and offers assessments of corridor investment projects supported by international development organizations. A series of spotlights examines such issues as private sector co-investment; the impacts of corridors on small enterprises and women; and issues with implementing cross-border corridors. The 'WEB' in the title stands for both the wider economic benefits (WEB) that transport corridors are expected to generate and the complex web of transport corridors that has been proposed. The appraisal methodology introduced in this book shows how the web of interconnected elements around corridors can be disentangled and the most promising corridor proposals—the ones with the greatest wider economic benefits—can be selected.

For the first time, the full, explosive record of the unthinkable: how a US president compromised American foreign policy in exchange for the promise of future business and covert election assistance. Looking back at this moment in history, historians will ask if Americans knew they were living through the first case of criminal conspiracy between an American presidential candidate turned commander in chief and a geopolitical enemy. The answer might be: it was hard to see the whole picture. The stories coming in from around the globe have often seemed fantastical: clandestine meetings in foreign capitals, secret recordings in a Moscow hotel, Kremlin agents infiltrating the Trump inner circle... Seth Abramson has tracked every one of these far-flung reports and now in, *Proof of Collusion*, he finally gives us a record of the unthinkable—a president compromising American foreign policy in exchange for the promise of future business and covert election assistance. The attorney, professor, and former criminal investigator has used his exacting legal mind and forensic acumen to compile, organize, and analyze every piece of the Trump-Russia story. His conclusion is clear: the case for collusion is staring us in the face. Drawing from American and European news outlets, he takes readers through the Trump-

Russia scandal chronologically, putting the developments in context and showing how they connect. His extraordinary march through all the public evidence includes: —How Trump worked for thirty years to expand his real estate empire into Russia even as he was rescued from bankruptcy by Putin’s oligarchs and Kremlin agents. —How Russian intelligence gathered compromising material on him over multiple trips. —How Trump recruited Russian allies and business partners while running for president. —How he surrounded himself with advisers who engaged in clandestine negotiations with Russia. —How Trump aides and family members held secret meetings with foreign agents and lied about them. By pulling every last thread of this complicated story together, Abramson argues that—even in the absence of a Congressional investigation or a report from Special Counsel Mueller—the public record already indicates a quid pro quo between Trump and the Kremlin. The most extraordinary part of the case for collusion is that so much of it unfolded in plain sight.

Like many children, Chase has parents who travel for work. Although Chase knows his parents have a special and important job to serve our country, he can't help but miss them when they are gone. One day, his parents reached out to Lullabear Land? and asked them to send Chase a gift to remind him of special moments he shares with his parents. Receiving that gift makes Chase's night. It helps Chase sleep peacefully, knowing his parents are thinking about him and missing him, too. And he knows they will be home soon to share more moments with him.
