Driver's Ed in North Carolina. Driver's education is the first step in the graduated licensing process for North Carolina teenagers. The North Carolina Division of Motor Vehicles (DMV) requires all teens younger than 18 years old to complete Driver's Ed before they can apply for their NC learner's permit. Driver's Ed will help you get your learner's permit, and eventually your driver's license, by teaching you how to drive safely and responsibly.

Along with preparing you for your driver's tests, Driver's Ed will teach you the skills required of safe, responsible drivers. Completing a driver's education course will put you one step closer to meeting the requirements of your learner's permit and getting behind the wheel with your first driver's license. Even if you're an experienced driver or a parent getting ready to teach your teenager how to drive, a Driver's Ed course can help refresh you on topics including:

Common Core Eureka Math for Grade K, Module 4 Created by teachers, for teachers, the research-based curriculum in this series presents a comprehensive, coherent sequence of thematic units for teaching the skills outlined in the CCSS for Mathematics. With four-color illustrations, complete lesson plans, and reproducible student worksheets and assessments, this resource is uniquely designed to support teachers in developing content-rich, integrated learning experiences that adhere to established standards and encourage student engagement. Developed by Common Core, a non-profit advocacy group dedicated to producing content-rich liberal arts curricula for America's K-12 schools, Common Core Mathematics is the most comprehensive CCSS-based mathematics curriculum available today. The modules are sequenced and paced to support the teaching of mathematics as an unfolding story that follows the logic of mathematics itself. They embody the instructional "shifts" and the standards for mathematical practice demanded by the CCSS. Each module contains a sequence of lessons that combine conceptual understanding, fluency, and application to meet the demands of each topic in the module. Formative assessments are included to support data-driven instruction. The modules are written by teams of master teachers and mathematicians. This Module addresses Number Pairs, Addition and Subtraction to 10. Common Core Learning Standards Addressed in Grade K, Module 4: K.OA.1, K.OA.2, K.OA.3, K.OA.4, K.OA.5

Every raindrop, lake, underground river and glacier is part of a single global well. Discover the many ways water is used around the world, and what kids can do to protect it.
