Winner of 2014 U.S. Gourmand Drinks Award • Taste 5,000 years of brewing history as a time-traveling homebrewer rediscovers and re-creates the great beers of the past. The Brewer ' s Tale is a beer-filled journey into the past: the story of brewers gone by and one brave writer ' s quest to bring them—and their ancient, forgotten beers—back to life, one taste at a time. This is the story of the world according to beer, a toast to flavors born of necessity and place—in Belgian monasteries, rundown farmhouses, and the basement nanobrewery next door. So pull up a barstool and raise a glass to 5,000 years of fermented magic. Fueled by date-and-honey gruel, sour pediococcus-laced lambics, and all manner of

beers between, William Bostwick's rollicking quest for the drink's origins takes him into the redwood forests of Sonoma County, to bullet-riddled South Boston brewpubs, and across the Atlantic, from Mesopotamian sands to medieval monasteries to British brewing factories. Bostwick compares notes with the Mt. Vernon historian in charge of preserving George Washington's molasses-based home brew, and he finds the ancestor of today's macrobrewed lagers in a nineteenth-century spy's hollowed-out walking stick. Wrapped around this modern reportage are deeply informed tales of history's archetypal brewers: Babylonian temple workers, Nordic shamans, patriots, rebels, and monks. The Brewer's Tale unfurls from the ancient goddess Ninkasi, ruler of intoxication, to the cryptic beer hymns of the Rig Veda and down into the clove-scented treasure holds of India-bound sailing ships. With each discovery comes Bostwick's own turn at the brew pot, an exercise that honors the audacity and experimentation of the craft. A sticky English porter, a pricelessly rare Belgian, and a sacred, shamanic wormwood-tinged gruit each offer humble communion with the brewers of yore. From sickly sweet Nordic grogs to industrially fine-tuned fizzy lager, Bostwick's journey into brewing history ultimately arrives at the head of the modern craft beer movement and gazes eagerly if a bit blurry-eyed toward the future of beer.

This landmark book offers a truly integrated perspective for understanding the formation of Jewish and Palestinian Arab identities and relations in Palestine before 1948. Beginning with the late Ottoman period Mark LeVine explores the evolving history and geography of two cities: Jaffa, one of the oldest ports in the world, and Tel Aviv, which was born alongside Jaffa and by 1948 had annexed it as well as its surrounding Arab villages. Drawing from a wealth of untapped primary sources, including Ottoman records, Jaffa Shari'a court documents, town planning records, oral histories, and numerous Zionist and European archival sources, LeVine challenges nationalist historiographies of Jaffa and Tel Aviv, revealing the manifold interactions of the Jewish and Palestinian Arab communities that lived there. At the center of the book is a discussion of how Tel Aviv's self-definition as the epitome of modernity affected its and Jaffa's development and Jaffa's own modern pretenses as well. As he unravels this dynamic, LeVine provides new insights into how popular cultures and public spheres evolved in this intersection of colonial, modern, and urban space. He concludes with a provocative discussion of how these discourses affected the development of today's unified city of Tel Aviv – Yafo and, through it, Israeli and Palestinian identities within in and outside historical Palestine.

The popular DISCOVERING COMPUTERS is now revised, based on customer feedback, to reflect the evolving needs of today's Introductory Technology students. This exciting new edition maintains proven hallmarks that ensure students know what they need to be successful digital citizens in college and beyond. This edition offers the latest coverage of today's digital world with an emphasis on enterprise computing, ethics, Internet search skills, mobile computing, various operating systems, browsers and security. Critical thinking and problem-solving exercises throughout the text reinforce key skills, while end-of-chapter activities provide hands-on practice. DISCOVERING COMPUTERS provides the content your students need, presented in a way that ensures their success. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Following on from Graham Bizley's successful Architecture in Detail, Architecture in Detail II presents 40 case studies of detailing on recent construction projects. Over 150 full colour drawings and photos provide a reference compendium for the professional architect seeking detailing inspiration. Originally featured in Building Design's In Detail magazine, the included projects represent some of the most interesting and innovative techniques in recent architecture. Graham Bizley's beautifully presented detail drawings allow the architect to easily see how ideas and techniques can be applied to other projects. The book is organised by building type for quick and easy reference.

Presents a comprehensive history of London - the incredibly unique and complicated city - from the fires and plundering of latterday Londinium to the frenetic art, music and politics of London.

Long considered the only book an audio engineer needs on their shelf, Sound System Engineering provides an accurate, complete and concise tool for all those involved in sound system engineering. Fully updated on the design, implementation and testing of sound reinforcement systems this great reference is a necessary addition to any audio engineering library. Packed with revised material, numerous illustrations and useful appendices, this is a concentrated capsule of knowledge and industry standard that runs the complete range of sound system design from the simplest all-analog paging systems to the largest multipurpose digital systems.

A NEW YORK TIMES BOOK REVIEW EDITORS' CHOICE A SAN FRANCISCO CHRONICLE BESTSELLER In AD 70, when the Second Temple was destroyed, a handful of visionaries saved Judaism by reinventing it, taking what had been a national religion and turning it into an idea. Whenever a Jew studied—wherever he was—he would be in the holy city, and his faith preserved. But in our own time, Zionists have turned the book back into a temple, and unlike an idea, a temple can be destroyed. With exuberance, humor, and real scholarship, Rich Cohen's Israel is Real offers "a serious attempt by a gifted storyteller to enliven and elucidate Jewish religious, cultural, and political history . . . A powerful narrative" (Los Angeles Times).

With its unprecedented convocation of eighteen of the world's greatest spiritual thinkers, writers, and scientists, including Maya Angelou, Deepak Chopra, Paulo Coelho, and Eckhart Tolle, this beautifully designed full-color spiritual guide—which ties into a film of the same name—reveals how you can overcome limitations and fulfill your highest potential. Baptist de Pape, a young lawyer, was mired in anxiety and fears about his future when he felt the call to investigate the incredible power of the heart and how it can lead us to our true purpose in life. On a quest that took him around the world, de Pape interviewed eighteen living icons—all on camera—including Isabel Allende, Jane Goodall, Marci Shimoff, Marianne Williamson, and Gary Zukav. Generously sharing their touching personal stories as well as profound guidance, these leaders co-created with de Pape a multidimensional, illuminating portrait of the heart as an inexhaustible source of love and wisdom that far surpasses that of the mind. With exciting spiritual and scientific insights, The Power of the Heart presents fascinating evidence that the heart is more than a physical organ. It possesses its own intelligence, capable of transforming your views of money, health, relationships, and success. Mindfulness exercises and contemplations guide you to activate the heart's special powers—including intuition, intention, gratitude, forgiveness, and love. These unforgettable lessons from the world's greatest teachers will inspire you to find your hidden talents, hear your inner voice, and fulfill your highest purpose in life.

"Case Studies in Multicultural Counseling and Therapy is a magnificent resource that will help create a greater bridge of understanding between the academic, research, and applied domains of the mental health professions." —From the Foreword by Thomas A. Parham, PhD, Vice Chancellor, Student Affairs, University of California, Irvine; Distinguished Psychologist, Association of Black Psychologists An indispensable collection of real-life clinical cases from practicing experts in the field of multicultural counseling and psychotherapy Case Studies in Multicultural Counseling and Therapy is a one-of-a-kind resource presenting actual cases illustrating assessment, diagnostic, and treatment concerns associated with specific populations. The contributors—well-known mental health professionals who specialize in multicultural counseling and psychotherapy—draw on their personal experiences to empower therapists in developing an individually tailored treatment plan that effectively addresses presenting problems in a culturally responsive manner. Providing readers with the opportunity to think critically about multicultural factors and how they impact assessment, diagnosis, and treatment, this unique book: Covers ethical issues and evidence-based practice Integrates therapists' reflections on their own social identity and how this may have influenced their work with their clients Considers the intersectionality of racial/ethnic, class, religious, gender, and sexual identities Contains reflection and discussion questions, an analysis of each case by the author, and recommended resources Includes cases on racial/ethnic minority

populations, gender, sexuality, poverty, older adults, immigrants, refugees, and white therapists working with people of color Aligns with the ACA's CACREP accreditation standards, the APA guidelines for multicultural competence, and the AMCD Multicultural Counseling Competencies

This anthology is designed to present a collection of humorous writings including parody, burlesque, satire, black comedy, cartoons, graffiti, limericks, and jokes. Writers represented include Lewis Carroll, Ogden Nash, Robert Benchley, Mark Twain, O'Henry, James Thurber, Art Buchwald, Dorothy Parker, and Oscar Wilde. A collection of essays on humor by E.B. White, Steve Allen, and others is also included.
