Eq. 12 – 6 with $s_0 = d$ $\dot{z} = 33.0$ ft and $y =$
 $0. + BA: y^2 = y_0^2 + 2ac (s - s_0)^2 = 442 + 2(-$
 $2)(d - 33.0)d = 517$ ftAns. For a drunk

The acceleration of a particle as it moves along a straight line is given by $a = 12t - 12$ m/s^2 , where t is in seconds. If $s = 1$ m and $v = 2$ m/s when $t = 0$, determine the particle's velocity and position when $t = 6$ s. Also, determine the total distance the particle travels during this time period.

Sets the standard for introducing the field of comparative politics This text begins by

laying out a proven analytical framework that is accessible for students new to the field. The framework is then consistently implemented in twelve authoritative country cases, not only to introduce students to what politics and governments are like around the world but to also understand the importance of their similarities and differences. Written by leading comparativists and area study specialists, *Comparative Politics Today* helps to sort through the world's complexity and to recognize patterns that lead to genuine political insight. MyPoliSciLab is an integral part of the Powell/Dalton/Strom program. Explorer is a hands-on way to develop quantitative literacy and to move students beyond punditry and opinion. Video Series features Pearson authors and top scholars discussing the big ideas in each chapter and applying them to enduring political issues. Simulations are a game-like opportunity to play the role of a political

Nationally regarded authors Andrew Pytel and Jaan Kiusalaas bring a depth of experience that can't be surpassed in this third edition of *Engineering Mechanics: Dynamics*. They have refined their solid coverage of the material without overloading it with extraneous detail and have revised the now 2-color text to be even more concise and appropriate to today's engineering student. The text discusses the application of the fundamentals of Newtonian dynamics and applies them to real-world engineering problems. An accompanying Study Guide is also available for this text.
