THE short answer to the question that is the title of RW Johnson's new book, How Long will South Africa Survive?, is roughly two years. That is when, he suggests, given the increasingly dire state of the economy, the country, cap-in-hand, will approach the International Monetary Fund for a bail-out which, in turn, will result in a regime change of some kind.

In 1977, Johnson's best selling How Long Will South Africa Survive? offered a controversial and highly original analysis of the survival prospects of apartheid. Now, after more than two decades of the ANC in government, he believes the question must be posed again. "The big question about ANC rule," Johnson writes, "is whether African nationalism would be able to cope with the challenges of running a modern industrial economy. Twenty years of ANC rule have shown conclusively that the party is hopelessly ill equipped for this task. Indeed, everything suggests that South Africa under the ANC is fast slipping backward and that even the survival of South Africa as a unitary state cannot be taken for granted. The fundamental reason why the question of regime change has to be posed is that it is now clear that South Africa can either choose to have an ANC government or it can have a modern industrial economy. It cannot have both."

This incisive, deeply informed book introduces post-apartheid South Africa to an international audience. South Africa has a history of racism and white supremacy. This crushing historical burden continues to resonate today. Under President Jacob Zuma, South Africa is treading water. Nevertheless, despite calls to undermine the 1994 political settlement characterized by human rights guarantees and the rule of law, distinguished diplomat John Campbell argues that the country's future is bright and that its democratic institutions will weather its current lackluster governance. The book opens with an overview to orient readers to South Africa's historical inheritance. A look back at the presidential inaugurations of Nelson Mandela and Jacob Zuma and Mandela's funeral illustrates some of the ways South Africa has indeed changed since 1994. Reviewing current demographic trends, Campbell highlights the persistent consequences of apartheid. He goes on to consider education, health, and current political developments, including land reform, with an eye on how South Africa's democracy is responding to associated thorny challenges. The book ends with an assessment of why prospects are currently poor for closer South African ties with the West. Campbell concludes, though, that South Africa's democracy has been surprisingly adaptable, and that despite intractable problems, the black majority are no longer strangers in their own country.

'A relentless and pulverising polemic against the ruling African National Congress and virtually all of its leading lights' Economist Nelson Mandela's inauguration as president of South Africa in 1994 seemed to usher in an age of peaceful, rational change. But R.W. Johnson's major new book explains how this was not to be. The profound damage of apartheid and the country's new leaders - in exile or prison for much of their adult lives - were a disastrous combination that poisoned everything from big business to education and AIDS policy to relations with Zimbabwe. At the heart of the book lies the figure of Thabo Mbeki, who presidency led to catastrophic failure on almost every front. In South Africa's Brave New World Johnson reveals how Mbeki and those around him brought South Africa close to 'failed state' status - and explores the implications for its future under Jacob Zuma. 'Lucid and vigorous ... devastating ... with some dark humour' Mail & Guardian 'A ripping audit of the post-apartheid settlement especially good at skewering Mbeki's 'Africanist' rhetoric' Stephen Robinson, Sunday Times

In this timely work, WHO RULES SOUTH AFRICA?, highly regarded authors Paul Holden and Martin Plaut analyse the political elites that battle daily for power in South Africa. They argue that power does not reside in traditional institutions such as Parliament or even the Cabinet. Rather, power lies within the ANC-led Alliance which, with no founding document and no written constitution, is an unstructured and mutable political hydra with business and criminal elements in close attendance. It is the interaction between these forces which is the real story behind post-apartheid South Africa. In a country where poverty is rampant and institutions are weak, the battle for power is set to intensify. The authors unravel the mystery of how the rainbow nation has reached such a pass. What are the origins of the Alliance, and will it survive the current power struggles? Who are the shadowy forces that operate within or alongside the Alliance? Most importantly, they seek to answer the burning question of whether South Africa is destined to become another African tragedy, or whether there is still the promise of growth and a stable democracy.

#1 NEW YORK TIMES BESTSELLER • The compelling, inspiring, and comically sublime story of one man's coming-of-age, set during the twilight of apartheid and the tumultuous days of freedom that followed NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Michiko Kakutani, New York Times • USA Today • San Francisco Chronicle • NPR • Esquire • Newsday • Booklist Trevor Noah's unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love. Praise for Born a Crime “Compelling . . . By turns alarming, sad and funny, [Trevor Noah's] book provides a harrowing look, through the prism of Mr. Noah's family, at life in South Africa under apartheid. . . . Born a Crime is not just an unnerving account of growing up in South Africa under apartheid, but a love letter to the author's remarkable mother.”—Michiko Kakutani, The New York Times

Sought after by European aristocrats and a favorite of Napoleon Bonaparte, the sweet wines of Constantia in the Cape Colony were considered to be among the world's best during the eighteenth and nineteenth centuries. During the first democratic elections in 1994, South Africa began to re-emerge onto the international

wine scene. Tim James, an expert on South African wines, takes the reader on an information-packed tour of the region, showing us how and why the unique combination of terroir and climate, together with dramatic improvements in winemaking techniques, result in wines that are once again winning accolades. James describes important grape varieties and wine styles—from delicate sparkling, to rich fortified, and everything in between—including the varietal blends that produce some of the finest Cape wines. Anchoring his narrative in a rich historical context, James discusses all the major wine regions, from Cederberg to Walker Bay, complete with profiles of more than 150 of the country's finest producers.

If you reckon corruption in South Africa began with Zuma or even with apartheid, it's time to catch a wake-up call. Rogues' Gallery tells the story of some of the biggest skelms to grace our (un)fair shores, showing that dodgy dealings have been a national pastime for as long as South African history has been written down. The action starts with the machinations of three colonial governors: rotten Willem Adriaan van der Stel and the 'twaddling' British duo, Sir George Yonge and Lord Charles Somerset. Added to this is Cecil John Rhodes's unparalleled success in poisoning the land with theft, fraud and war, and Oom Paul Kruger's corrupt and compromised Volksraads (official and unofficial). Readers are then treated to apartheid's finest feats in corruption: from the Broederbond's perfect ten in state capture to the Department of Information's peddling of fake news and the apartheid state's manufacture of - no, not illegal cigarettes - Class A drugs! And let's not forget the hotbed of corruption that was the 'independent' homelands. Add to this a few murders, plenty of nepotism and a state president who started out as a Nazi spy, and the gallery of rogues is complete. On the flipside, every chapter also features at least one brave whistle-blower - the true heroes of this book. Irreverent, entertaining and impeccably researched, Rogues' Gallery busts the myth that the Zuptas were the first to capture the South African state, showing that corruption has always been around - and that the tricks politicians play haven't changed a jot.

Ever since Nelson Mandela dramatically walked out of prison in 1990 after twenty-seven years behind bars, South Africa has been undergoing a radical transformation. In one of the most miraculous events of the century, the oppressive system of apartheid was dismantled. Repressive laws mandating separation of the races were thrown out. The country, which had been carved into a crazy quilt that reserved the most prosperous areas for whites and the most desolate and backward for blacks, was reunited. The dreaded and dangerous security force, which for years had systematically tortured, spied upon, and harassed people of color and their white supporters, was dismantled. But how could this country--one of spectacular beauty and promise--come to terms with its ugly past? How could its people, whom the oppressive white government had pitted against one another, live side by side as friends and neighbors? To begin the healing process, Nelson Mandela created the Truth and Reconciliation Commission, headed by the renowned cleric Archbishop Desmond Tutu. Established in 1995, the commission faced the awesome task of hearing the testimony of the victims of apartheid as well as the oppressors. Amnesty was granted to those who offered a full confession of any crimes associated with apartheid. Since the commission began its work, it has been the central player in a drama that has riveted the country. In this book, Antjie Krog, a South African journalist and poet who has covered the work of the commission, recounts the drama, the horrors, the wrenching personal stories of the victims and their families. Through the testimonies of victims of abuse and violence, from the appearance of Winnie Mandela to former South African president P. W. Botha's extraordinary courthouse press conference, this award-winning poet leads us on an amazing journey. Country of My Skull captures the complexity of the Truth Commission's work. The narrative is often traumatic, vivid, and provocative. Krog's powerful prose lures the reader actively and inventively through a mosaic of insights, impressions, and secret themes. This compelling tale is Antjie Krog's profound literary account of the mending of a country that was in colossal need of change.
