old, Bryan Bishop's life was right on track. Known to millions as "Bald Bryan," the sidekick and soundman on the record-setting podcast, The Adam Carolla Show, his radio career was taking off. He was newly engaged. Then, he and his fiancée Christie were delivered a crushing blow when he was diagnosed with a brain stem glioma—an inoperable brain tumor. Suddenly Bryan's promising future was transformed into a grueling schedule of radiation and chemotherapy while facing his mortality. In this poignant narrative that is alternately heartbreaking and hysterical, Bishop shares the surreal experiences of writing his will with the bravado of a pulp novelist, taking chemo in a strip club, and (technically) the

closest he ever got to achieving his lifelong dream of a threesome—when a physical therapist had to show his wife how to bathe him in the shower during his weakened state. Whether recounting his search for the most aggressive form of treatment, how radiation treatment jeopardized his ability to (literally) walk down the aisle or even smile for his wedding photos, or recalling the time his wife inadvertently drugged him in a pool in Maui, Bishop's inimitable voice radiates through his story. As the author celebrates how treatment shrunk his tumor and gave him a new lease on life, *Shrinkage* reveals the resilience of the human spirit—and the power of laughter—during even the darkest times.

In *Profit and Punishment*, a Pulitzer Prize-winning journalist exposes the tragedy of modern-day debtors prisons, and how they destroy the lives of poor Americans swept up in a system designed to penalize the most impoverished. "Intimate, raw, and utterly scathing" — Heather Ann Thompson, Pulitzer Prize-winning author of *Blood in the Water* "His Pulitzer Prize winning series on debtors' prisons in Missouri made a serious difference in real people's lives and his book will be a must read for a nation seeking a bipartisan path forward on criminal justice reform." —Claire McCaskill, former US Senator and analyst for MSNBC As a columnist for the St. Louis Post-Dispatch,

Tony Messenger has spent years in county and municipal courthouses documenting how poor Americans are convicted of minor crimes and then saddled with exorbitant fines and fees. If they are unable to pay, they are often sent to prison, where they are then charged a pay-to-stay bill, in a cycle that soon creates a mountain of debt that can take years to pay off. These insidious penalties are used to raise money for broken local and state budgets, often overseen by for-profit companies, and it is one of the central issues of the criminal justice reform movement. In the tradition of *Evicted* and *The New Jim Crow*, Messenger has written a call to arms, shining a light on a two-tiered system invisible to

most Americans. He introduces readers to three single mothers caught up in this system: living in poverty in Missouri, Oklahoma, and South Carolina, whose lives are upended when minor offenses become monumental financial and personal catastrophes. As these women struggle to clear their debt and move on with their lives, readers meet the dogged civil rights advocates and lawmakers fighting by their side to create a more equitable and fair court of justice. In this remarkable feat of reporting, Tony Messenger exposes injustice that is agonizing and infuriating in its mundane cruelty, as he champions the rights and dignity of some of the most vulnerable Americans.

In this authorised biography of one of the most remarkable Irishmen of the twentieth century, Richard Aldous is independent in his judgements and frank in his examination of his subject's shortcomings and eccentricities. But most of all, he writes with verve and pace. Tony Ryan was born in a railwayman's cottage and rose to enormous success, overseeing the spectacular making of two business fortunes and the dramatic loss of one. After an early spell in Aer Lingus, he set up an airline leasing company, Guinness Peat Aviation (GPA), which had its headquarters in Shannon and quickly became the largest such enterprise in the world. Ryan was a hard

taskmaster and the company reflected his ferocious work ethic. Yet, despite a stellar board of directors, a botched and poorly timed Initial Public Offering in the 1990s saw GPA crash and burn. Ryan lost almost everything. All that remained was a little airline running massive deficits. Ryan set about turning Ryanair around, putting in one of his assistants, Michael O'Leary, to help knock it into shape. The rest is history. Ryan remade his fortune, lived lavishly and elegantly, was a generous patron of the arts, and in every respect larger than life. His spirit is one that Ireland needs more than ever today. As the nation strives for its own recovery, it can find inspiration in the story of how one of its most famous sons rose and

fell, and then rose again. Not one to stand still or lament mistakes, Tony Ryan's determination never to give up is the real lesson of this story. He was in so many ways Ireland's Aviator.

At the heart of this vibrant saga is a vast ship, the Ibis. Its destiny is a tumultuous voyage across the Indian Ocean; its purpose, to fight China's vicious nineteenth-century Opium Wars. As for the crew, they are a motley array of sailors and stowaways, coolies and convicts. In a time of colonial upheaval, fate has thrown together a diverse cast of Indians and Westerners, from a bankrupt raja to a widowed tribeswoman, from a mulatto American freedman to a

freespirited French orphan. As their old family ties are washed away, they, like their historical counterparts, come to view themselves as jahaj-bhais, or ship-brothers. An unlikely dynasty is born, which will span continents, races, and generations. The vast sweep of this historical adventure spans the lush poppy fields of the Ganges, the rolling high seas, the exotic backstreets of Canton. But it is the panorama of characters, whose diaspora encapsulates the vexed colonial history of the East itself, that makes *Sea of Poppies* so breathtakingly alive—a masterpiece from one of the world's finest novelists.

highly knowledgeable, realistic - yet positive - review and assessment of the United Nations. Convenient for use in courses on international organization. The reviewer would particularly recommend it to individuals connected officially or otherwise professionally concerned with the United Nations'. American Journal of International Law In the first edition of this book the late Evan Luard questioned whether or not the UN had failed and suggested ways in which the institution could be improved. Into this context he placed analyses of the operation of the Security Council, the General Assembly, economic and social bodies, the World Court and the International Law Commission, the Secretariat and
