Information and the availability of big data have dramatically increased the speed and impact of success and failure. Companies today know that they must be competitive, but precisely where, and more importantly how, to compete is not always easy to identify—until now. *Compete Smarter, Not Harder* explains how to prioritize market opportunities so that a company's strengths in one area can be leveraged across multiple markets. Using cutting-edge academic research and extensive industry practice, author William Putsis outlines the strategic decisions needed to determine which space provides the best margins, overall profitability, and growth potential.
