Now in its 5th edition, Shiphandling for the Mariner is the classic and definitive text on the art of practical shiphandling skills for large, modern commercial vessels. Written by a father and son team of pilots, along with contributions from other expert pilots and shipmasters, this compendium follows a nontechnical format that stresses maneuvers used routinely in the field. The text covers essential maneuvers used in docking, undocking, and shiphandling, plus uncommon maneuvers such as docking at single-point and multiple-buoy moorings, use of anchors in shiphandling, offshore lightering, and transiting of locks and canals. Bridge practices in pilot waters and training techniques, including simulator training are also discussed. Updated for the 5th edition: squat and under keel clearance, current practices for bridge resource management, and the use of laptop navigation systems and ECDIS in pilotage waters. Shiphandling for the Mariner is ideal for those with a foundation of practical knowledge looking to advance and master shiphandling skills that are essential to the marine profession.

Car keys have developed from the simple systems which were no more advanced than the front door key of a house to very advanced forms that use onboard computers for their operation. Modern vehicles also have push button remote locking/unlocking, it is rare these days to push your Car Key into the barrel to open it. Most cars now use Remote Control Keys to open. These improvements in the Car Keys Systems, has however made it difficult for genuine car owners to duplicate their Car keys or get a replacement when they lose them. The process requires specialize skills and knowhow for even a regular locksmith. This book has therefore been written to inform and guides anyone who wants to develop the skills required to duplicate or replace keys of modern cars.

The Cat Paving Products Guide to Asphalt Compaction is an information-packed, easy-to-read resource that is supported by more than 180 color photos and illustrative graphic elements.

In the realm of Prima Earth all is unwell. The most powerful and cruel of any being to stride through its dust has waged war upon the world of mankind. Raum, known to even the most hermitic dwarf as the Immortal One, has hammered humanity down to the level of an endangered species, conquering over two-thirds of the race--slaying kings and kingdoms at an unfathomable pace. Hope is lost ... fight or flee ... either means death. Dego, child of a dead city, rescued by one of the oldest and learned Earth Movers as an infant, wrestles with the promise of some unknown purpose that he cannot comprehend. It rules his days, distracts from his studies, and impedes the peaceful future his adoptive father, Dreg, has set forth. A moment before madness takes him, young Dego is given his heart's desire when Dreg breaks a covenant older than recorded time to impart on him the secrets of the Earth Mover's immense powers. Blessed with the ability to move the elements of the earth, Dego is thrust into the rank of humanity's last chance to thwart the armies of Raum and stave off the annihilation of his native kind.
