Music Therapy A

Melody is thought to be the 'essential core' of music. In the context of music therapy, looking at how patients develop their own melodies in improvisation can explain how they find their own voice, determine their position in relation to the world, and play an important role in how they relate to their therapist. Gudrun Aldridge and David Aldridge explore the concept of melody within its historical context and investigate current theories of melody.

Melody Music Therapy

Melody decided that she wanted to be a music therapist aged 14 and spent time gaining experience with a variety of client groups before going on to study music at the University of Birmingham, specialising in flute performance.

Music Therapy Works / Who We Are / Team

In music therapy making a melody is a great way to make contact with a client and discover new possibilities, and a client can always respond with his or her own melody.

During European Music Therapy Day we will "make a melody" together, and demonstrate how making a melody in music therapy works."
