RELX - Wikipedia

Reed students learn to use a broad array of instruments, including a gas chromatograph-mass spectrometer (GC-MS), Fourier transform IR spectrometers (FT-IR), a superconducting 400 MHz Fourier transform NMR spectrometer (FT-NMR), an x-ray diffractometer, and a 250-kilowatt nuclear reactor. Another important aspect of laboratory work is learning to interpret experimental data, and students learn to use molecular modeling programs to create conceptual models that assist with data analysis.

New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences". The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the context of society and culture.
