The Imperial Russian Navy (Russian: ?????????? ?????????????? ?????) was the navy of the Russian Empire from 1696 to 1917. It was formally established in 1696 and lasted until being dissolved during the February Revolution of 1917. It developed from a smaller force that had existed prior to Tsar Peter the Great's founding of the modern Russian Navy during the Second ...

Imperial Russian Navy - Wikipedia

Pavel headed back to Russia in October with news of the land they had found. In November Bering's ship was wrecked on Bering Island. There Bering fell ill and died, and high winds dashed the Sv. Petr to pieces. After the stranded crew wintered on the island, the survivors built a boat from the wreckage and set sail for Russia in August 1742.

A fascinating memoir of an extraordinary sailing adventure. The Baltic Millennium Rally was organised by the Cruising Association in the year 2000, which saw Irene and her husband Gordon circumnavigate Scandinavia in their boat Fereale. A journey which took them through the inland waterways of Russia's North and back via North Cape and Norway.

Peter the Great created a navy from nothing, but it challenged and soon surpassed Sweden as the Baltic naval power, while in the Black Sea it became an essential tool in driving back the Ottoman Turks from the heartland of Europe. In battle it was surprisingly successful, and at times in the eighteenth century was the third largest navy in the world - yet its history, and especially its ships, are virtually unrecorded in the West.??This major new reference work handsomely fills this gap, with a complete and comprehensive list of the fleet, with technical detail and career highlights for every ship, down to small craft. However, because the subject is so little recorded in English, the book also provides substantial background material on the organisation and administration of the navy, its weapons, personnel and shipbuilding facilities, as well as an outline of Russia's naval campaigns down to the clash with Britain and France known as the Crimean War.??Illustrated with plans, paintings and prints rarely seen outside Russia, it is authoritative, reliable and comprehensive, the culmination of a long collaboration between a Russian naval historian and an American ship enthusiast.??EDUARD SOZAEV is an established Russian naval historian with a number of books to his credit. JOHN TREDREA, his translator, editor and long-term collaborator, is an American ship enthusiast with a life-long interest in the Russian navy.

The Arctic is the newest sphere of international competition for energy and security access. It pits Russia against the other Arctic states. These essays fully explore and analyze what is at stake here and what Moscow has done to increase its capability and influence in the Arctic.

Merchant colonies were a significant factor for economic growth in Europe during the early modern period. The essays in this collection look at merchant colonies across Europe, assessing their function, legal status, interaction with local traders and assimilation into their host countries.

Presented here for the first time in English, this richly detailed study--based on British, French, Greek, and Russian archival sources--tells the story of the powerful Greek trading houses that competed successfully with North America to feed the industrializing population of Western Europe. Vassilis Kardasis presents this commercial history by charting the rise of Greek merchant houses to a position of dominance over the export of trade in Russian grain. Though the Greeks would eventually cede their dominance to the competition of cheaper American grain in the second half of the nineteenth century, their influence was felt in the transformation of Southern Russia to productive agricultural land and the formation of large Black Sea port cities which would eventually encourage massive immigration. Diaspora Merchants in the Black Sea fills an important gap in our understanding of the role of the diasporic Greek community in southern Russian history, the history of Greek maritime activity, and ultimately the history of economic relations between Eastern and Western Europe.

This is volume 5 of the set "English Radicalism (1935-1961). Reissuing the epic undertaking of Dr S. Maccoby, these volumes cover the story of English Radicalism from its origins right through to its questionable end. By Combining new sources with the old and often long forgotten, the volumes provide an impressive history of radicalism and shed light on the course of English political development. The six volumes are arranged chronologically from 1762 through to the perceived end of British Radicalism in the mid-twentieth century.
