- Key changes to financial accounting and structure in SAP S/4HANA Finance - New general ledger structure in the universal journal - Master data changes in G/L accounts and the business partner - SAP S/4HANA preparation and migration tools

Are you working with SAP software for the first time, or are you switching from SAP ERP and are confronted with SAP S/4HANA for the first time? Then this quick start guide with its concise overview of the functional scope and a clear introduction to the new SAP Fiori user interface is right for you. Clarify the terms ERP, HANA and S/4HANA, as well as the two licensing options for S/4HANA, on-premise and cloud. You will learn about the essential integrated business processes and how they are mapped in SAP S/4HANA using the Fiori apps. To do this, the authors take you through the modules related to logistics, such as materials management, sales and distribution, and production planning and control, and then demonstrate the integration with financial accounting and controlling. You will learn about the most important functions as well as organizational and master data objects, and by the end of the book you will also know which components are assigned to each module. Finally, using case studies, you will walk step by step through the three most important end-to-end processes in SAP S/4HANA: Order to Cash, Purchase to Pay and Forecast to Fulfill. - Cross-module presentation of business processes - SAP basic terms explained in a simple and understandable way - Introduction to the new user interface SAP Fiori - Includes 4 hours of video material

This book offers a comprehensive introduction to SAP S/4HANA Sales and Distribution (SD). You will learn the basic fundamentals of SAP SD, with examples based on a case-study approach. Using a fictional company scenario, you will learn the fundamentals of the order-to-cash process and key flow, from sales order delivery to billing document. Explore the foundational document-the sales order. Obtain detailed information on master data and how it is used in SD. Dive into master data objects, business partners, and material masters. Review how master data is connected to sales orders and pricing. Understand sales order processing, including item categories, availability checking, dates, shipping, texts, and more. Walk through delivery processing and billing. Familiarize yourself with two of the major SD pre-sales documents - contracts and quotations. Delve into the post-sales processes, including returns, service, and debit and credit memos. Look at transactional list reports and analytical reports. For readers who are new to SAP SD in S/4HANA, the detailed case study, practical examples, tips and screenshots quickly bring readers up to speed on the fundamentals. - Foundations of SAP SD in S/4HANA - Sales orders and document types - Master data objects, business partners and material masters - Examples and screenshots based on a case-study approach
