Organizational success crucially depends on having a superior strategy and effectively implementing it. Companies that outperform their rivals typically have a better grasp of what customers value, who their competitors are, and how they can create an enduring competitive advantage. Successful strategies reflect a solid grasp of relevant forces in the external and competitive environment, a clear strategic intent, and a deep understanding of a company's core competencies and assets. Generic strategies rarely propel a firm to a leadership position. Knowing where to go and finding carefully considered, creative ways of getting there are the hallmarks of successful strategy.

"The structural designs that occur in nature - in molecules, in crystals, in living cells - appear in this fully illustrated book as a source of inspiration and study of design of man-made structures" -- BOOK JACKET.

Leadership in Organizations is the first in a series of three books written primarily for distance-learning students in online undergraduate and graduate programs with a focus on management, leadership, and organizational development. This first book introduces concepts, theories, and principles of leadership across a broad spectrum and is intended for students in online courses on leadership, management, and

Business. A signature theme of the book is the distinction between leadership and management. This book presents a real-world view to help students learn to recognize the dynamics of leadership theory in operation so that they can begin to apply these principles to situations in their work environments.
