The Cinco De Mayo Reckoning

Cinco de Mayo (pronounced [s ko ðe ma o] in Mexico, Spanish for "Fifth of May") is an annual celebration held on May 5. The date is observed to commemorate the Mexican Army's victory over the French Empire at the Battle of Puebla, on May 5, 1862, under the leadership of General Ignacio Zaragoza. The victory of the smaller Mexican force against a larger French force was a boost to morale ...

The fifth of May has been a Mexican holiday since 1862, and has gradually become a bigger one in America. Like many American holidays, it is now encrusted with humbug and commercialism. As with St. Patrick ' s Day, many Americans see it solely as an excuse to drink, eat some ethnic food, and maybe wear some ridiculous plastic hats. You may know some of the common myth-busting tropes: It isn ...

Around Cinco de Mayo, there would be fiestas in our neighborhood. Vendors sold grilled corn on the cob prepared with butter, mayonnaise, cotija cheese, chile powder and a lime wedge. They were so delicious! After moving, we'd crave this corn, so I altered the recipe using canned corn and mixed in the same ingredients for a similar treat that ...

After a foiled assassination attempt, Grace trails a terrorist across the Middle East, the South Pacific and Mexico to uncover his plan. Sahm Mahaz bin Batal, a terrorist financier and dealer in death, has gained access to the most secret - and least expected - defense weapons the US has ever created. Allied with a bitter enemy of the United States, he is bent on destroying as much of the United States as possible. Despite gunfights, exploding houses and an embarrassing pair of wounds, Grace is tasked by the president to put an end to the madness a war that should never have happened. She readily undertakes the task, but runs into trouble when escaping with a wounded comrade. She couldn't resist snatching the man she considered responsible for enabling the war. And causing the death of a best friend.

When longtime animosities between a Mexican and a white American student at a Texas high school finally flare into violence, one ends up in the hospital with a broken arm and a fractured ego. A few hours later, the other ends up dead. In the reverberation, friends and enemies alike are left to grapple with loss, suspicion, and rapidly escalating racial tensions. Narrated with brutal candor by six boys—each with a very different take on the week ' s events—The Confessional blends murder mystery, contemporary politics, and high school drama to create a gritty, fast-paced read.

During Mexico's War of Reform in 1860, Conservative Gen. Miguel Miram ó n and his army was responsible for some heinous crimes, many of them against innocent citizens. After the war, he escaped from Mexico aboard a French naval vessel as the war ended. Now, Miram ó n is about to return with his French backers. Many Mexican residents seek revenge against Miram ó n for what he did to their families. Thirty-two-year-old Alonso Torres is one of them. His father, Major Eugenio Torres, was killed in a massacre, and Alonso vows to avenge his father's death. Alonso has joined the mission of General Zaragoza as an undercover operative and works with Fernando Vargas and his sons to either capture or kill Miram ó n. Paloma Vargas is unaware that her family's stagecoach business is the cover for a Mexican spy network. The only girl in the family, she becomes suspicious when her four brothers mount up and leave town with Torres. Paloma follows them and finds herself suddenly committed as a guerilla fighter. She becomes a force to be reckoned with, and the colonel who heads the French contre-gu é rilla forces is outraged when he learns the person causing him major problems is a woman. He orders his men to find out who she is and to capture or kill her at any cost.

Secrets: some feel freed having them out. Others will kill to keep them. On May 5, in a flash of pain, every man, woman and child on the planet receives a second set of memories. A new name, a new language, a whole new life slips into their minds, along side their own. In Chicago, a transit worker knows enough about the Aryan Brotherhood to mark him for death. In Abu Dhabi, a playboy experiences modern day slavery. In New York an advertising executive shares the memories of a blind railroad worker in China. In this transparent world of instant intimacy, no one is left untouched... Everyone has secrets!

Death of a Texas Ranger is the thrilling, action-packed story of the murder of Texas Ranger John Green by Cesario Menchaca, one of three Rangers of Mexican descent under Green ' s command. Immediately word spread that the killing may have been the botched outcome of a contract taken out on Menchaca ' s life by the notorious Gabriel Marnoch, a local naturalist who had run up against the law himself. But was it? Much more than just a story about a tragic frontier killing, it is the story of an era. The events leading up to the murder and Green ' s son ' s decades ' long quest for justice for his father ' s killer exemplify the chaotic frontier society in Texas after the Civil War, a time fraught with political turmoil and cultural clashes. Amidst that chaos, the virgin landscape of Texas was a magnet to those interested in the natural sciences in the nineteenth century, an era often referred to as the Age of Darwin. The clash between the seemingly pastoral landscape with its offerings for science and the brutal history of the region ties this very readable regional history into the larger American story.

A Rock between Two Rivers is the story of a man coming to terms with the environmental legacy of his family ' s ranch in Dimmitt County, Texas, and reckoning with the birthright he ' ll leave for the generations who follow. What began for Hugh Fitzsimons as a mission to expose local ecological hazards from hydraulic fracking has turned into a lifelong ache to understand the more complicated story of how his family changed the land inherited from his grandfather, and deeper still, how the land irrevocably changed the family. Water is the lens through which this fifth-generation rancher tells his story. While the discovery of oil in this part of Texas fueled the region's growth, water has the upper hand, determining where people live and how they make their living. Agriculture, ranching, drilling for oil, and now fracking all require water, with each pursuit requiring more and more but giving back less and less to the communities they ' ve helped enrich. In A Rock between Two Rivers, Fitzsimons struggles with the inheritance he wants for his own children, one that considers the future consequences of our actions toward the land we are born to and owns the broader threats to our natural resources that loom in the near distance. Interweaving a family narrative of a life built on the U.S.-Mexico border and the history of European colonization with its brutal consequences on the land and indigenous peoples, Fitzsimons explores how our attitudes toward this precious resource have changed alongside our relationship to the places we call home.

This book brings Christian, Jewish and Muslim scholars from different fields of knowledge and many places across the globe to introduce/expand the dialogue between the field of liturgy and postcolonial/decolonial thinking. Connecting main themes in both fields, this book shows what is at stake in this dialectical scholarship.

This kaleidoscopic collection reflects on the multifaceted world of classical music as it advances through the twenty-first century. With insights drawn from leading composers, performers, academics, journalists, and arts administrators, special focus is placed on classical music ' s defining traditions, challenges and contemporary scope. Innovative in structure and approach, the volume comprises two parts. The first provides detailed analyses of issues central to classical music in the present day, including diversity, governance, the identity and perception of classical music, and the challenges facing the achievement of financial stability in non-profit arts organizations. The second part offers case studies, from Miami to Seoul, of the innovative ways in which some arts organizations have responded to the challenges analyzed in the first part. Introductory material, as well as several of the essays, provide some preliminary thoughts about the impact of the crisis year 2020 on the world of classical music. Classical Music: Contemporary Perspectives and Challenges will be a valuable and engaging resource for all readers interested in the development of the arts and classical music, especially academics, arts administrators and organizers, and classical music practitioners and audiences.
