Finally, what came across is the depth of character and determination Steve Heaney applied to even be considered for selection in the Pathfinders - a clear measure of the man. It's therefore no surprise that those qualities are reflected in each page of the book, X-Platoon. Highly recommended by and therefore 5 stars all the way.

For three decades one of the most secretive units in the British military has been a mystery force known as X Platoon. Officially there was no X Platoon. The forty men in its elite number were specially selected from across the Armed Forces, at which point they simply ceased to exist. X Platoon had no budget, no weaponry, no vehicles and no kit - apart from what its men could beg, borrow or steal from other military units. For the first time a highly decorated veteran of this specialised force - otherwise known as the Pathfinders - reveals its unique story. Steve Heaney became one of the youngest ever to pass Selection, the gruelling trial of elite forces, and was at the cutting edge of X Platoon operations - serving on anti-narcotics operations in the Central American jungles, on missions hunting war criminals in the Balkans, and being sent to spy on and wage war against the Russians. The first non-officer in the unit's history to be award the Military Cross, Steve Heaney reveals the extraordinary work undertaken by this secret band of brothers.

"My fellow Americans, I'm pleased to tell you today that I've signed legislation that will outlaw Russia forever. We begin bombing in five minutes. † ? – Ronald Reagan, 1984. With these words, spoken as a sound check to a radio broadcast, President Reagan came dangerously close to igniting the long-simmering Cold War. Although Soviet forces were placed on alert following reports of this comment, the full-scale conflict between the West and the Soviet Bloc did not break out. Cold War Gone Hot, the latest companion volume for Force on Force, looks at the 44-year history of the Cold War and asks: "what if? † ? With the orders of battle, vehicle stats and missions included in this volume, Force on Force players can simulate the advance of Soviet tanks across Western Europe, a thrust into Alaska, or any number of other plausible scenarios where history took a slightly different path.

In the early 90s, Somalia was a country in chaos. As civil war raged, warlords carved out their own territories, enforcing their will through militia gangs, while famine compounded the situation. As a joint US – UN mission struggled to maintain order, the warlords began to unite behind Mohamed Farrah Aidid, who was to proclaim himself President of Somalia and embark upon a campaign to force the peacekeepers out of the country. Operations against Aidid and his strongholds intensified, culminating in the famous Operation Gothic Serpent, and the rescue mission to save a downed Black Hawk helicopter carried out by US Rangers and Delta Force operatives. Day of the Rangers, the latest companion for Force on Force, provides wargamers with all the background, orders of battle, and scenarios they need to immerse themselves in the epic battle for Mogadishu.

2,000 blood-crazed rebels. 26 elite British soldiers. One man's explosive true story. Airlifted into the heart of the Sierra Leone jungle in the midst of the bloody civil war in 2000, 26 elite operators from the secret British elite unit X Platoon were sent into combat against thousands of Sierra Leonean rebels. Notorious for their brutality, the rebels were manned with captured UN armour, machine-guns and grenade-launchers, while the men of X Platoon were kitted with pitiful supplies of ammunition, malfunctioning rifles, and no body armour, grenades or heavy weapons. Intended to last only 48 hours, the mission mutated into a 16-day siege against the rebels, as X Platoon were denied the back-up and air support they had been promised, and were forced to make their stand alone. The half-starved soldiers, surviving on bush tucker, fought with grenades made from old food-tins and defended themselves with barricades made of sharpened bamboo-sticks, tipped in poison given to them by local villagers. Sergeant Steve Heaney won the Military Cross for his initiative in taking command after the platoon lost their commanding officer. OPERATION MAYHEM recounts his

amazing untold true story, full of the rough-and-ready humour and steely fortitude with which these elite soldiers carried out operations far into hostile terrain.

This report describes the relationships between measures of cohesion obtained on nine U.S. Army light infantry platoons at home station and the subsequent performance of those platoons at the Joint Readiness Training Center (JRTC). The JRTC performance was measured by observer/controllers using tank evaluation and observation checklists and also by company commanders using summary ratings. When outlier cases were controlled, bonding among leaders, soldiers, and between leaders and their soldiers was strong and correlated significantly with platoon performance as measured by the observer/controllers. Correlations with company commander ratings were positive but not significant. The strongest correlations were between the types of bonding listed above and the preparation subtask of task performance. However, because of the limited number of platoons involved, replication is needed to confirm the results, and caution must be used in drawing conclusions.
