In a Pap test, your doctor uses a vaginal speculum to hold your vaginal walls apart and to see the cervix. Next, a sample of cells from your cervix is collected using a small cone-shaped brush and a tiny plastic spatula (1 and 2).

Pelvic exam - Mayo Clinic - Mayo Clinic - Mayo Clinic

The cervix or cervix uteri is the lower part of the uterus in the human female reproductive system. The cervix is usually 2 to 3 cm long and roughly cylindrical in shape, which changes during pregnancy. The narrow, central cervical canal runs along its entire length, connecting the uterine cavity and the lumen of the vagina. The opening into the uterus is called the internal os, and the opening into the vagina is called the external os. The lower part of the cervix, known as the vaginal portion

Cervix - Wikipedia
