2012 FLTRU Harley Davidson Twin Cam 103 ticking sound starts on cold start up (21,000 miles). It seems to go away after engine is warm. Bike still under warranty and dealer is suggesting carbon build up in head, wants to tear down engine. Not comfortable with that procedure. Bike runs great. Anything else that can be done, such as RingFree or Sea Foam?

Harley Davidson Twin Cam 103 Ticking Sound | Fix My Hog

Much of the noise is from crank pinion runout. based on where the pinion shaft is out of true as to how it effects the cam. Some are loud others are not. HD is not going to do much of anything for you. So if it still runs great ride the bike.

103 Engine Noise | V-Twin Forum

A friend's '11 Road Glide Ultra makes a chattering noise at speed, like valve noise when you're running bad gas. He uses premium, bike has about 11k on the odometer. H D dealer says there is nothing wrong. I test rode the same style bike at an event at our local dealer last year. It was a '12 with a 103 and had about 5k on the clock.
