This group of documents define design standards that must be followed for any airport project. (Documents are Microsoft Word or AutoCAD files compressed in ZIP format, and range in size from 1-33Mb.) All downloadable files are available on CD-ROM; if you do not have a high-bandwidth connection to the Internet, or prefer to receive the files on CD-ROM, ask your project manager for a copy.

Design Standards | Port of Seattle

A sheet symbol is an electrical design primitive. It is used to represent a sub-sheet in a multi-sheet hierarchical design. Sheet symbols include sheet entry symbols, which provide a connection point for signals between the parent and child sheets in a hierarchical design, similar to the way that Ports provide connections between sheets in a ...
